

Company Introduction

i-neda specialises in high volume transactional wagering solutions for tote betting systems around the world and we are looking to expand our team of outstanding developers. We believe in a forward thinking, friendly, relaxed atmosphere, and we are looking for like-minded individuals to join our team.

Ruby Developer

This role is for a developer to join our team in Farnborough. Candidates should be ready to get straight to work within our friendly team of developers, designers, project managers and engineers. Day to day you will be responsible for working within the team to design, create and improve new and existing products, with a focus on back end development.

Skills / Experience

- Minimum 1 year's commercial experience
- Experience integrating with XML or JSON APIs in Ruby
- Experience with some of all the following Ruby gems:
 - Rails
 - ActiveRecord
 - Nokogiri or Nori
 - Eventmachine
 - Sinatra
 - rb-inotify - Rake
- MySQL experience
- Redis experience
- Knowledge of the use of version control systems such as subversion or git
- Ability to quickly research and learn new programming tools and techniques
- A degree in Computer Science, Software Development or other related subject

Nice to have

- Knowledge / experience of any front-end web technologies such as Javascript, AngularJS would be advantageous
- Knowledge or familiarity with any other language such as Java or Go would be a distinct advantage
- Experience or knowledge of betting or financial industries
- Working within an Agile environment
- Knowledge of working with Project Management tools such as Atlassian JIRA

What you can expect from us

- A competitive salary
- Flexible working hours
- Regular reviews and, after a qualifying period, bonuses aligned with personal and business objectives
- A commitment to your career progression and furthering your learning
- A relaxed and friendly working environment

This role is based in Farnborough, Hampshire. The successful candidate must be willing to commute to the office or relocate. Unfortunately, at this time i-neda will not consider any applications from candidates requiring work/visa sponsorship for the UK.
